PRO Floor™

HIGH RESISTANCE FLOOR PAINT

100% ACRYLIC ULTRA-SMALL PARTICLE SIZE

PINTURA ACRÍLICA DE ALTA RESISTENCIA PARA PISOS CON TRÁFICO VEHICULAR

Driveways | Garage Floors | Workshop Floors | Pavements

PRODUCT DESCRIPTION

BULL-BOND® Pro Floor™ is an acrylic, high resistance floor paint. This high performance product is specially designed to provide a tough coating with high adhesion strength, abrasion resistance, chemical resistance, hot tire pickup resistance and traffic resistance. **Pro Floor™** is formulated with an ultra-small particle size polymer technology and a rigid hydrophobic latex that creates a durable floor coating for concrete surfaces.

Basic Uses:

- High-Resistance Floor Coating for:
 - Driveways
 - Garage Floors
 - Workshop Floors
 - Pavements
 - Patios
 - Parkings

BULL-BOND® Pro Floor™ is suitable for interior and exterior conditions on horizontal surfaces for the previously mentioned applications.

Suitable Substrates:

- Concrete • Asphalt

**The preferable substrate to apply the Pro Floor™ is over bare concrete. Good adhesion can be obtained over existing coatings, but the final adhesion of the Pro Floor™ will depend on the adhesion level of the previously applied material.*

Applications:

GARAGE & WORKSHOP

DARK GRAY

LIGHT GRAY

TERRACOTTA

GREEN
